Create Page

Clear Form

Cancel

Explanation:

1. Select a content template

Article

Article

Album

Journey

Admin

2. Select a theme

Black

Black

Blue

Green

Maroon

Orange

3. Select a top menu

Select one...

- Select one...
- Home
- Cultural exploration Tour
- Scholastic Competition
- Resources
- Admin

4. Select a 2<sup>nd</sup> level menu

2<sup>nd</sup> level menu is a context sensitive to the first level menu selection. For example, if the top menu selection is *Cultural Exploration Tour*, the 2<sup>nd</sup> level menu will show the following:

Select one...

- Select one...
- Introduction
- Application
- Testimonials
- Album
- Journey

If the top menu select is *Scholastic Competition*, the 2<sup>nd</sup> level menu will show:

Select one...

- Select one...
- Introduction
- Registration
- Results

5. Enter a content filename

The name is your content file.

6. Create the web page

Click the button will create a web page for the content in the */public/top-menu/submenu* folder.

7. Move the web page if needed

If you need the web page to reside in different folder, you can move it after the web page is created.
